

YARD WASTE & LEAF DEBRIS

PLACEMENT

Leaf piles and yard debris should be placed curbside. Please do not park in front of piles or place piles in the roadway.

RAIN

Wet leaves clog and damage the leaf collector, thus leaf collection may be postponed during rain events.

LEAF PILES

Leaf piles should be free of sticks, twigs and other debris that can clog and damage the leaf collector.

BRUSH DIMENSIONS

Brush should be bundled into piles 50 lbs or lighter. Limbs should not exceed dimensions of 4 ft length or 6 in diameter. Larger piles will be collected as a Special Pickup.

DIRT, SAND & MULCH

These items should be placed in yard bags and will be collected as a Special Pickup.

LANDSCAPING

The City is not responsible for collecting yard waste from the work of private contractors and landscapers. Please contact them for your yard debris and tree removal.
